

MOCS 2025 - The Merck Organic Chemistry Symposium

Thursday 4 December 2025 - Friday 5 December 2025

Floreal Blankenberge

Scientific Programme

The scientific program will include invited lectures, a series of oral communications presented by experienced Ph.D. students and postdoctoral fellows, and a poster session. To stimulate interactions between academic and industrial chemists, and to allow Ph.D. students and postdoctoral fellows to inquire about job opportunities, a session of flash interviews will be organized with representatives of chemical and pharmaceutical companies.

Confirmed invited lectures include:

Prof. Anette Beck-Sickinger (Leipzig University, Germany)
Prof. Sébastien Thibaudau (University of Poitiers, France)
Prof. Jonathan Clayden (Bristol University, UK)
Prof. Jan Tytgat (KU Leuven, Belgium)
